

Gruppo Messina

PRESS RELEASE

The judgement issued today by the court of Genoa regarding the dramatic accident involving the ship Jolly Nero of May 7th 2013, in total respect of the families' pain, marks an indisputable recognition: Gruppo Messina – under the supervision of Master Giampaolo Olmetti, who has been absolved – employs and manages safe ships; the collapse of the control tower is thus only pertaining to the manoeuvre in the outer harbour of Genoa. In this regard, we will now have to wait for the motivations for the judgment in order to know how the judge has rebuilt the behaviour and the role of the various actors during this manoeuvre.

Gruppo Messina S.p.A.
